MEDIUM DUTY TRAY

Our Medium Duty Trays are ideal for customers who have a smaller budget. These trays are still made to the high standards of workmanship that Tom's are proud of, but are ideally suited to couriers and customers undertaking lighter work around the city. As with our Heavy Duty Tray, the Medium Duty Tray comes as standard with heavy duty floor planking and is available in a range of sizes.

HEAVY DUTY TRAY

Tom's Heavy Duty Tray is fully welded with heavy duty floor planking. It is of robust construction which has been tested under extreme conditions in The Kimberley's. These trays come in a variety of sizes to suit your needs, so are ideal for all types of use. When purchasing a Tom's Heavy Duty Tray you are assured of a first class product.

CUSTOM TRAY

Our Custom Tray is built to customer specifications, so is a one of a kind construction. As these trays are built with the customer's needs in mind, they can be used in a wide range of situations. Custom Trays can be built in either Aluminium or Steel, with a variety of headboard sizes from 40mm – 76mm.

STEEL TRAY

New to our range is the Steel Tray. This tray is very robust and comes with a chequer plate floor as standard. These trays are built to specification so are ideal for the mining industry; however they are an excellent choice for customers who use their vehicles in varying surroundings and conditions due to its robust build. Truck Trays are also available. Call our friendly staff for more information.
